Local Red Cross Drive Reaches \$1000 Mark

Campaign Has Maintained
Healthy Pace Since Its Opening
Last Week; Mine Canvass
Completed.

The local Red Cross executive is greatly pleased by the enthusiastic response given the annual campaign. Two thirds of the \$1,500 objective has already been secured with less than two weeks canvassing and confidence is held that the remaining \$500 will quickly be forthcoming as the canvass draws to a close.

McGillivray miners have contributed approximately \$300, while International men came through with approximately \$350. The business section contributed \$250 and the school teaching staff \$40. Only a few local lodges have been heard from, but nevertheless \$50 has been received from that source.

It is planned to clear up the drive within the next week, at which time the \$1,500 quota is expected to have been reached.

A pie, made out of powdered black bread, jam and a little water, doesn't sound appealing as a culinary concoction. But to a group of Canadian airmen in a German prison camp it was a most palatable delicacy. Squadron Leader Foss Boulton, DFC, RCAF, officer commanding No. 3 Release Centre at Rockcliffe, Ontario, is willing to swear by this fact. He should know, because he was there and ate it.

Recently returned to Canada after a year in various prison camps and hospitals in Germany, Squadron Leader Boulton told how the men in the prison camps take the weekly food parcels from the Canadian Red Cross and attempt to make new dishes to vary the monotony of the poor and scanty German diet.

He was confined in a room with six men, he said, in a camp in Upper Silesia. Each man received a weekly Red Cross food parcel. A duty roster was made up and each week one man would be responsible for preparing the meals from the Red Cross parcels and the German ration. The big thing was to prepare something "different."

"Our meals were so much alike that any unusual dish was hailed by everyone," he recalled. "A cake was a tasty addition to any meal and this could be whipped up in short order by some of the fellows using the pulverized state crusts of black bread, raisins, jam and whatever else we could spare. Over the top, of course, we had a chocolate icing. That bar of chocolate in the Red Cross package came in mighty handy."

"The spirit of the boys behind the barbed wire is wonderful," he said, "but especially so when Red Cross parcels keep coming. And every single scrap of food is used. Yes, even from the German ration."

PIE ARTHUR PETTIFOR MISSING IN ACTION

The sad news that their son, Flight Engineer Arthur Clifford Pettifor, is missing in action after air operations overseas on March 11 was received by Mr. and Mrs. Walter Pettifor on Tuesday evening. The missing airman's wife and baby daughter reside at Pincher Creek.

Born at Cowley, the airman was educated at Brooks and Camrose. Last September he visited his parents along with his wife and baby. He left here enroute to Britain following his September furlough. He has a younger brother in the Canadian navy, a sister, Mrs. J. Powlyk, of Coleman, and sister Grace at Alberta University.

Six Entries Received By Lions Drama Committee

Expect Further Entries From
Cardston and Hillebrand;
Lethbridge and Nanton Enter
For First Time.

Coleman's third annual Drama Festival arrangements are coming along nicely, according to Secretary Jim Allan. To date, entries have been received from Bellevue-Hillcrest and two from Coleman. New entries this year have been received from Lethbridge and Nanton, the latter with two.

Cardston and Hillebrand are also expected to send entries, the secretary being in communication with both clubs.

The two local entries are from Coleman Players, last year's festival winners, and Coleman Drama Club. Mrs. Wm. Irwin is once again in charge of the Bellevue-Hillcrest club and assures the local executive of a sterling performance by his young players.

The executive are endeavoring to have Mr. Sidney Risk, supervisor of dramatics at the Department of Extension, University of Alberta, come here as adjudicator.

The festival dates have been set at April 18 and 19 and will be staged in the Community hall.

There are no garbage pails for waste food in prison camps.

"But even with the wonderful difference the Red Cross parcels made to our meals, I lost more than 20 pounds in the year," he went on, "and remember, I didn't lose weight through exercise. Others in the camps lost even more weight. Try to imagine what would have happened to them if they had been deprived of their Red Cross parcels."

May Turn Hospital Into Library And Club

Plan On Using It To Benefit of
Entire Community; Nothing
Definite At Present Time.

Now that plans are going full speed ahead on the new municipal hospital, The Journal interviewed two members of the miners' union executive on Wednesday morning to find out what was planned for the local hospital building once it was no longer required as a hospital.

The Journal was informed that up to the present no discussion had been entered into by the union executive regarding the building. However, it was believed that the suggestion to turn the building into a library and club would find favor with the executive. Asked if they favored freedom of membership to the entire community rather than limit club membership to miners alone the two men stated that they personally would like to see the building used to the benefit of the entire community.

Aware that the council has a committee working to establish a library in Coleman the two men thought that perhaps, should the executive agree on a library, the council and executive could come to some amiable agreement where the one library would be sufficient.

The two men also voiced their hope to have accommodation available for playing cards, dominoes, checkers, darts, etc., and thus make it a place where a quiet evening could be spent in complete enjoyment.

Pte. Roy Beddington Injured In Action Overseas

Had Gone Overseas Only Three
Months Ago; Wire States He
Had Been Seriously Wounded.

A wire was received last Wednesday evening by Mrs. Roy Beddington that her husband, Pte. Beddington, had been seriously wounded while serving with the Canadian army overseas.

Pte. Beddington first joined the Canadian army in February, 1942, as a bandsman and was based at Red Deer for some time. He later transferred to the infantry and was sent overseas on Dec. 3, 1944.

He has been in the Holland and German fighting, which has been especially fierce during the past few weeks. Since receiving the first wire last week telling of his being wounded March 3, no further information has been received.

Mrs. Beddington and young son are at present residing with the former's parents, Mr. and Mrs. H. Hulbert. Pte. Beddington's parents are Mr. and Mrs. Fred Beddington, of Lethbridge and former Colemanites.

Fish & Game Warden to be Here For Few Months

It Had Been Originally Intended
That He Be Sent Here For Only
A Month.

Following the publishing of the Fish and Game Warden editorial last week The Journal was informed by E. O. Duke, M.L.A., of the results of the meeting between the Hon. Mr. Tanner, minister of lands and mines, and himself.

Mr. Duke had anticipated Mr. Tanner entirely ignorant of the fact that Coleman town council had again petitioned the latter for the appointment of a permanent fish and game warden in the Pass. He was told of the letter by Mr. Tanner. The minister then suggested that a warden be sent down to the Pass for a month. Mr. Duke told him that it was impossible to clean up the situation in a month. Two months was suggested and again the minister was told it could not be done in two months. Three months or probably a little longer was then suggested and the matter was left at that point.

The minister stated that while he did not, at the present time, intend to station a permanent warden in the Pass it might lead to this at a later date if conditions did not improve materially.

The warden to be sent here will be taken from another area in the province.

Mr. Duke has informed the minister that deer have recently been shot in this area as well as the dynamiting of a river in order to get fish out of season.

JIMMY SLUGG AND JOHNNY RYPHEN STAR AT EDMONTON

Jimmy Slugg, scoring champion of the Edmonton junior hockey league, was recently presented with a \$75 wrist watch after being considered the most valuable player in the league. Jimmy is now the property of Les Canadiens, of Montreal.

Johnny Rypien is considered by Harry Scott, of the Calgary Alberta, as "a polished professional." Ryp's clever stickhandling and deceptive shifts have made him a favorite with Edmonton's hockey fans. Johnny was the outstanding Canadian player as Calgary was eliminated by scores of 10-1 and 10-2, scoring five goals and assisting in seven others to lead the point-makers.

Slugg and Rypien have always been local favorites and the Edmonton-Moose Jaw interprovincial playoffs will thus provide further interest to local hockey enthusiasts.

Blairmore Lions Launch Ambitious Project

Blairmore Lions are making a major attempt to raise several thousand dollars to place in their welfare activity fund and thus be able to accomplish many community activities without the embarrassment of having little if any funds to carry out those activities.

This week they are launching a raffle which has as the major prize \$1,000. The tickets sell at 50c each and each ticket purchaser has the opportunity of recording how many, in his opinion, votes will be cast in the forthcoming federal election. The number of votes cast in the 1939 federal election is given as a clue to the forthcoming vote.

One of the activities contemplated by the club is the furnishing of the nursery or children's ward in the proposed new municipal hospital.

Readers' attention is directed to the club's ad, appearing in this issue.

SGT. CHARLES MAURER SENDS GREETINGS FROM JAPAN

On February 25, while listening to short wave radio, Mrs. Jack Mitchell heard with surprise the name of Charles Maurer mentioned.

The broadcast was coming from a Tokyo radio station and the commentator stated that Charles Maurer, of Alberta, Canada, a prisoner of war, sent New Year's greetings to his mother, Mrs. Frances Maurer.

Sgt. Maurer was taken a prisoner of war at Cavite in the Philippines when those islands were overrun by the Japs in 1942. He was later taken to Japan, where he has been kept since.

A card was received by his mother from him last Christmas and acknowledged a parcel received over a year ago.

\$739 Taken From Pocket Of Local Citizen

Friend of Two Years Takes Roll
From Top Coat Pocket of Bill
Fleweich, Local Dry Cleaner .

As a result of placing too much faith in a friendship of two years duration Bill Fleweich, local dry cleaner and tailor, today mourns the loss of \$739.

The robbery occurred almost three weeks ago in the home of Mr. Fleweich. According to the latter he had secured the promise of a truck which he urgently needs in his business. He had taken a sum of money from the bank to take care of the transaction. His friend of two years arrived in town from Cranbrook and got to know about the money.

In visiting Mr. Fleweich at his home both men placed their top coats on a couch. Mr. Fleweich had his money in a roll with a rubber string around it in the inside pocket of his top coat. It is believed that the money was stolen while the coats lay on the couch.

The loss was discovered the morning following the visit of the friend when Mr. Fleweich searched for the money. He immediately went to the Grand Union hotel where the friend was supposed to be staying, but it was found that he had left town and to date no trace of him has been found by the police.

\$1,000,000 IN VOTE FOR MAIN HIGHWAYS

Vote of more than \$3,000,000 for highway purposes this year has been provided for in estimates of the public works department which have been submitted to the legislature.

The appropriation is receiving the close study of officials of the Alberta Motor Association which has urged time and again the need of a highway improvement and hard surfacing program.

Under the proposed provincial program, there will be \$1,000,000 for main highway construction this year. This is practically the same as the sum voted in 1944. For main highway maintenance, the appropriation is \$850,000.

The department is providing approximately \$900,000 for district highways and local roads, this being an increase of \$200,000 over the sum voted last year.

For new bridges construction, the vote is \$35,000, which was the same as that provided in 1944.

Dear Sir: Many thanks for the cigarette I received today. I am still O.K. over here and quite happy. I haven't run into Alois Krywolt for a few weeks, but hope to see him tomorrow. I also expect to run into Johnny Nimcan, as he is somewhere in the same area as L-N. Cytka.

Ella Yates' Husband Died In P.O.W. Camp

Wire Received Here on Monday;
Was Listed Missing in Action
Jan. 4; Married in Sept., 1943.

On Monday Mr. and Mrs. Jimmy Yates received the sad news from their daughter, Mrs. Roderick McDonald, of Victoria, that her husband, Lieut. R. M. McDonald, 26, had died of wounds in a German prisoner-of-war camp.

Lieut. McDonald went overseas in February, 1944, and on Jan. 4 of this year was listed missing in action and thought to be wounded. It was only on Monday that Mrs. McDonald received the wire that he had been a prisoner of war and had succumbed to his wounds.

Deceased is the eldest son of Mr. and Mrs. R. C. McDonald, the father being a member of the British Columbia legislature. He has two brothers, Donald and Walter, and a sister, Mrs. Evelyn Monk, all of New Westminster.

Lieut. McDonald met Miss Yates in Victoria, where she was nursing. They were married at New Westminster in September, 1943. Mrs. McDonald has been a member of the nursing staff of the Royal Jubilee hospital, Victoria, while her husband was in the army.

FAMILY ALLOWANCES

Question: How much will each child receive?

Answer: Children under 6 years of age, \$5 a month; children from 6 to 9 years of age, \$6 a month; children from 10 to 12 years of age, \$7 a month; children from 13 to 15 years of age, \$8 a month.

In families of more than four children, there will be a reduction of \$1 a month for the fifth child, \$2 for the sixth and seventh child, and \$3 for each additional child. In other words, the four oldest children under 16 receive the regular allowance, and additional younger children on a reduced scale.

Examples:
Two children aged 7 and 5 would get \$6 plus \$5—\$11 per month.

Four children aged 13, 9, 6 and 2 would get \$8, \$6, \$6 and \$5—\$25 per month.

Eight children aged 15, 14, 11, 10, 8, 4, 3 and 1 would get \$8, \$8, \$7, \$7, \$5, \$5, \$3, \$2 — \$43 per month.

HITLER EXHORTS GERMANS TO KEEP UP RESISTANCE UNTIL THE ALLIES BECOME WEARY

LONDON. Adolf Hitler, declaring the Allies are "drunk by their orgy of victory" and intend to destroy the German nation, exhorted Germans to fanatical resistance until the Allies "get tired and will yet be broken."

"The year of 1918 will not be repeated," said a manifesto in Hitler's name marking the 10th anniversary of military conscription. It was broadcast from Berlin.

Offering a pallid hope of distant victory, Hitler asserted "only those who suffer defeat who are unworthy of winning victory" and indicated Germany would fight on in guerrilla resistance if her armies were smashed.

"We witness both in the east and in the west what our people would have to face. Our task is therefore clear: To put up resistance and to wear down our enemies so long that until, in the end, they will get tired and will yet be broken. Everybody has therefore to fulfill his duty."

"It is my unshakable determination and it must become the inshakable will of us all to show the world no worse example than our forefathers have given," said the proclamation, dated at Hitler's headquarters.

"The year 1918 will not be repeated. We know the fate Germany will meet otherwise. Drunk by their orgy of victory, our enemies have already announced their war aims: extermination of the German nation."

GREETES CANADIANS

Commander Of Southwest Pacific Areas Welcomes Troops From Canada

NEW YORK. Canadian troops serving with the Australian army were welcomed and complimented by Gen. Sir Thomas Blamey, commander of the southwest Pacific areas of the Australian news and information bureau here reported.

The Canadians were chiefly technical specialists. The bureau said Gen. Blamey stated the Australian army was anxious to have a greater representation from Canada in the south west Pacific area.

It was estimated there are now nearly 1,000 army men of all ranks serving with Indian, Australian, New Zealand and American forces ready to form the nucleus of the contemplated Canadian Pacific expedition.

OTTAWA. The Dominion bureau of statistics reported its official cost-of-living index, calculated on the basis that 1935-36 equals 100, remained unchanged at 118.6 between Jan. 2 and Feb. 1, 1945, for a wartime increase of 17.7 per cent.

CURRENT SHORTAGES OF GOODS NO REASON FOR PANIC BUYING SAYS PRICES BOARD CHAIRMAN

TORONTO. Canadians face the prospect of taking in "a few more notches in their belts" to meet home front supply shortages which will not end until sometime after fighting ceases, but there is no reason for "panic buying," Donald Gordon, prices board chairman said.

In an address prepared for delivery to the Women's Canadian club, Mr. Gordon reviewed methods being used by the board to distribute supplies equitably. His address was broadcast on a CBC (National) network.

A similar address was delivered in Montreal to the heads of Women's French-speaking associations by Senator Cyrille Vaillancourt, advisor to Mr. Gordon.

Mr. Gordon said there was always the possibility of rumors about shortages or anticipated rationing causing unforeseen consumer rushes which caused scarcities where scarcities need not exist. Control was not the cure for all the problems. Self-restraint and co-operation by the public could solve many of them more efficiently.

"We could and would introduce more rationing if conditions became really critical," Mr. Gordon continued. "But if, as we feel most shortages

BRITISH PRISONERS

Some Were Put To Death Before Bulgarian Armistice Signed

LONDON. War Secretary Sir James Grigg told the commons that some British prisoners in Bulgarian prison camps were put to death before the Bulgarian armistice was signed.

Between 50 and 60 British prisoners had been held in Bulgarian camps with Americans, who for outcome berated them, he said.

"I regret to say that some of our prisoners were put to death," Grigg said. "It is not known how many, but the number is certainly under 100." He said the Britons had been treated brutally and their food was insufficient before the armistice.

Grigg said 42 Bulgarian officers and men are under arrest for mistreating prisoners. He refused to pledge that they would be punished by British authorities, saying that the question was a part of the greater issue of the international punishment of war criminals.

FARM WORKERS

Employed On Essential Industries Now Return To Agriculture

OTTAWA. Labor Minister M. J. Macdonald announced selective service authorities have completed plans for the return to the farm of workers from agriculture who were temporarily employed during the winter months in other essential industries. The number is estimated at more than 80,000.

As was done last year, the dates by which farm workers must be released by employers in other industries will be fixed by localities. Dates for the different localities will be fixed and announced by regional superintendents at Winnipeg and Vancouver.

Oil Controller Says Gasoline Rationing Will Continue As Usual

TORONTO. Gasoline rationing in Canada will remain unchanged after April 1 as a result of increasing need of fuel for war front transportation, G. R. Cottrell, oil controller for Canada said in an address to the annual meeting of the Ontario Motor League here.

Fuel for each one of the reported 500 naval craft taking part in the two Jima landings had to be moved from this side of the Pacific, he said, adding that all the petroleum products used for war craft in Europe must go from this continent and the Caribbean.

WITH THE FIRST CANADIAN ARMY IN GERMANY. — The first Canadians decorated on German soil received their ribbons from Field Marshal Montgomery at an investiture which the 21st Army Group commander held during a tour of Canadian formations of Gen. Crerar's army.

There was none of the pomp of a formal investiture in these ceremonies. They were held under trees in most cases with a handful of spectators and a guard of honor comprised of men from headquarters staffs.

OPERATION OF THE CANOL OIL PROJECT BY THE U.S. ARMY IS TO BE DISCONTINUED

OTTAWA. Operation of the Canol oil project in northwestern Canada by the United States army will be discontinued by June 30 and a new agreement with the United States has been reached on disposition of the pipelines and refinery.

Announcement to this effect was made by the external affairs department on behalf of Prime Minister Mackenzie King.

A new exchange of notes provides for valuation of refined oil distribution lines as well as the refinery at Whitehorse, Yukon, and the crude pipeline to Whitehorse from Norman Wells.

The new agreement provides for a speeded up procedure for valuing the

project and preparing the way for its purchase by the government of Canada or sale to private interests. Two governments will appoint representatives at an early date to inspect the property, with a view to making preliminary reports possibly before termination of operations.

The \$134,000,000 project designed to make oil from deposits at Fort Norman, N.W.T., available for the forces in Alaska and the North Pacific area was launched when it was feared the Japanese might cut the south supply lines by sea. It consists of a crude oil pipeline from Norman Wells to Whitehorse, Yukon, a refinery at Whitehorse, and products distribution pipelines from Skagway, Alaska, to Whitehorse, down the Alaska highway to Watson Lake and up the highway to Fairbanks.

The external affairs statement said in part:

"When the project was started it was provided that at the conclusion of the war the crude oil pipeline and the refinery would be appraised at their then commercial value by appraisers appointed by Canada and the United States."

"The Canadian government was given the option to purchase this part of the property at such appraised value and if it did not exercise the option the property could be sold to any other bidder at not less than the appraised value."

"Should the pipeline and refinery be used at any time for commercial purposes it was agreed that they would be subject to such regulations and conditions as the Canadian government might consider it necessary to impose in order to safeguard the public interest. In no event could the project be dismantled except upon the advice of the Canada-United States permanent joint board on defence."

Air Forces Have Reduced Nazi Oil Production

LONDON. Sir Archibald Sinclair, air secretary, said that "Allied air forces have reduced German oil production to such an extent that available reserves are almost certainly exhausted."

The percentage loss of R.A.F. bombers despatched has been reduced by approximately 400 per cent. since 1942, he told the House of Commons in introducing the air estimates for 1945.

Sir Archibald said losses of R.A.F. and American bombers over Europe had been reduced from 4.1 per cent. of planes despatched in 1942 to 1.7 per cent. last year, and to 1.1 per cent. during the first two months of 1945.

"Our air superiority has not been obtained without hard fighting and heavy casualties," he said, reporting that between April 1 and Sept. 30, 1944, "Bomber command alone suffered more than 10,000 casualties."

He expressed his gratitude to Canada in particular, and also to the other dominions, for their part in the training of R.A.F. personnel.

"Not far short of 200,000 young men have received their flying training in the dominions. Gratitude is due particularly to the Canadian government and the Royal Canadian Air Force."

TRIAL STARTED

Purge Court In Paris Is Dealing With Gestapo Gang

PARIS.—The Paris purge court has begun trial of a Gestapo gang which the prosecution says was headed by a man who gave to the Germans code messages sent by the BBC to the resistance movement.

Seven men and one woman are on trial. The indictment said they were led by Georges Leducq, 36-year-old wireless operator, who formerly worked with the resistance movement, receiving secret messages from the BBC.

Arrested by the Germans and faced with the alternative of being shot or working for the Gestapo he chose betrayal.

NURSES WANTED

Joint action to cope with the current shortage of trained nurses was endorsed at a recent meeting of the Canadian Nurses' Association liaison committee with National Selective Service officials, Ot-

tawa, it was stated by the employment advisor, women's division, Unemployment Insurance Commission, Winnipeg.

Declaring that the nursing shortage is one of the most serious problems confronting the Canadian home front today, practically every hospital across the Dominion is alarmingly understaffed. So critical is the situation that some hospitals have been compelled to reduce the number of wards, and others are in danger of having to close down altogether.

Two suggestions to help relieve the situation were endorsed at the Ottawa meeting. The first was that the general public should be acquainted with the gravity of the nursing shortage, and that as far as possible citizens should reduce their demands for graduates for home nursing in order that nurses would be available for hospital work. The second suggestion was that graduate nurses should co-operate by staggering their vacations during mid-summer.

Appealing to more young Canadian women to enter the nursing profession, it was said that they would perform not only a great service to their country and to the community in which they lived, but would secure for themselves a permanent position. They will also be privileged to play a vital role in the building of the new world.

National Selective Service and the Canadian Nurses' Association are also appealing to all graduate nurses now working in war factories and other occupations to return to the hospitals and health services. To facilitate their return, new provisions have been made to include transportation to the place of employment, payment in lieu of wages lost while travelling, and a separation allowance where nurses are required to live separately from persons dependent upon them for support. It was disclosed that the Canadian Red Cross Society and the St. John Ambulance Association have pledged their support to national selective service in a drive to recruit nurses' aids for hospitals which can make use of their services.

Theatre Notes

"Princess O'Rourke," Romantic Comedy, at Palace Saturday Moviegoers should have no difficulty in warming up to the new Warner Bros. picture, "Princess O'Rourke," which has its premiere at the Palace theatre Saturday.

The film starring Olivia de Havilland and Robert Cummings is a storehouse of fun—jumped with all the ingredients that make for outstanding entertainment.

The lovely Olivia is cast as Maria, a royal princess in exile. Cooped up in her luxurious suite in a swank New York hotel, she suffers from ennui. Under the constant surveillance of her guardian uncle, the princess doesn't have too much fun 'till she's sent on a plane trip to California. The plane, however, never reaches the west coast. After only a few hours a heavy fog turns it back to New York harbor.

By this time the beautiful princess is sound asleep, having piled herself with enough sleeping pills to put her out for two days. Lucky for her, young Eddie O'Rourke, the co-pilot, was there to take her un-

der his wing. For Eddie was a good boy, reared right, so he sent the sleeping beauty to his apartment in the care of his friend's wife.

Imagine Maria's surprise when she awakened amidst thoroughly masculine surroundings! And, to complete her mystification, a series of placards hung about the room pleading for a date that afternoon. The princess was intrigued, so she went home with some cock-and-bull story about where she spent the night—then set out to meet Eddie.

To nobody's surprise, of course, Maria and Eddie fell in love. The complications that ensue in Eddie's courtship and his state of prolonged shock when he discovers she is

a real princess make for hilarious laughter. But, boy gets girl in the end, and everybody, except Uncle, is very happy.

"Princess O'Rourke" was directed

by Norman Krasna, who also authored the story. Krasna, for many years has been one of Hollywood's top scripters. A strong supporting cast, headed by Charles

Coburn, Jack Carson and Jane Wyman, includes Minor Watson, Gladys Cooper, Harry Davenport, Ray Walker, Ruth Ford, Julie Bishop, Curt Bois and Frank Puglia.

WHAT is the attitude of the life insurance companies toward policyholders cashing in on their policies?

ANSWER: They do everything they can to avoid such policy surrenders. They have special departments devoted to the conservation of existing business and they recognize that their best agents in the field are those who help people to keep themselves and their families protected.

But don't cash values in policies encourage surrenders? ANSWER: They shouldn't. The cash value privilege should be used only in cases of real need when sudden misfortune may force a man to raise all the money he can. His life insurance is one place to which he can turn. If the need is not too extreme he can obtain a loan on his policy and so keep his insurance in force. Because of the cash value and loan benefits in policies many a home has been kept together, many a business saved in time of storm and stress.

To Have a Well With Water

A dry well isn't much help when you're thirsty. And when your business or organization needs money—it's good to have "a well with water."

Treasury Branches of the Government of Alberta provide complete loaning facilities to all Alberta firms. Through Treasury Branches, towns, villages, municipal districts and school areas can arrange finances according to budget proposals. Farmers may be advanced funds for productive purposes.

A Suffering World Calls to You!

On all the war fronts, and in the countries torn by war, suffering is greater now than ever before. Your Canadian Red Cross brings relief and comfort to prisoners of war, wounded and sick on the field and in hospital, refugees and victims of the Nazi hordes, besides a host of other services to Canadian soldiers, sailors and airmen and their dependents at home and abroad. Your dollars are needed as never before. Give generously!

The Continuing Job of the CANADIAN RED CROSS

THE EUROPEAN WAR is nearing its end. That is obvious. Many people, including members of the Canadian Red Cross, have asked us what our job will be if the war should suddenly end.

We reply that we can only see ahead greater responsibilities than ever. Both in Europe and at home the work of the Red Cross must go on. The war will not bring an end to suffering and want, to the care of our Prisoners of War, to our Wounded, and to the millions whose homes and way of life have been dislocated by strife.

We therefore feel that every Canadian has a right to some knowledge of what our responsibilities will be in the event of peace, and just how we propose to discharge those responsibilities. We treat each of our main activities under its respective heading.

PRISONERS OF WAR—With the end of hostilities our Prisoners of War will automatically cease to be Prisoners. Chaos and breakdown in Germany will probably ensue. The German state will cease to care for them. They will become wards of the Allied General in command of the Occupation Forces. Transportation will be difficult, and it will probably take a minimum of six months to repatriate the 2,400,000 Canadian, British and Allied Prisoners in German Camps. The need of Prisoners' Parcels and Medical Supplies will be doubled. They will be distributed by the Allied Command, and will play a vital part in feeding our men pending repatriation. After the magnificent job we have done during the last five years we cannot let our boys in German prison camps down. Our Prisoners in the Far East will also be a continuing responsibility. We must carry on until every man is back home.

EUROPE'S STARVING MILLIONS—The job of feeding Europe's hungry millions is staggering in its intensity. Over 17,000,000 humans have been torn from their homes. Many have nowhere to rest their weary heads. They are starving. Malnutrition is the rule rather than the exception. There will be an urgent need for food, clothing and medical supplies. The Red Cross in these stricken countries are utterly dependent on their sister societies for supplies to meet these dire needs. Can we let them down? The Canadian Red Cross must go on!

RED CROSS WORK WITH OUR ARMED FORCES—Until the last Canadian soldier has left Europe and has been discharged from hospital, there will be important work for the Red Cross to do. How long this will be we do not know, but one thing we are certain of and that is that every Canadian at home will want to make sure that our boys will be as well looked after with the coming of peace as they were in war. The care of the wounded both in Europe and Canada is a permanent responsibility which we cannot evade. No Canadian wants to evade it. Here again the Red Cross must go on!

BLOOD SERUM SERVICE—Red Cross Blood Serum has saved countless lives in battle. The end of the war will see the end of painful war wounds. The demand for serum on the fighting fronts, except the Far East, will cease. But the Red Cross Blood Serum Service should be continued for civilian use. If the Red Cross makes it freely available it can save thousands of the lives of our own civilian citizens when war has ended.

OUTPOST HOSPITALS, CHILDREN'S CLINICS AND DISTRICT NURSING SERVICE—This is part of the Red Cross service to civilians in Canada. It is carried out in the sparsely settled parts of the Dominion, and it must go on.

FIRST AID AND HOME NURSING SERVICE—One of the finest peacetime activities of the Canadian Red Cross. It is truly a worth-while work and must go on.

TEACHING CANADIANS HOW TO BE BETTER NOURISHED—There is important work yet to be done in the matter of Nutrition. Thousands of Canadians are not eating the proper food. Their health could be improved immeasurably. The Canadian Red Cross has undertaken to educate where education is necessary. This work must go on.

PREPARATION TO MEET EPIDEMIC OR DISASTER—In case of these twin evils the Red Cross is always first on the job. For this reason alone the Red Cross must go on.

JUNIOR RED CROSS—A great crusade of 900,000 Canadian school children for health and good citizenship. A work that must go on.

FAMILY ALLOWANCES

The Family Allowance Act becomes effective on the 1st of July, 1945, it is, therefore, of the utmost importance that all births which have occurred during the past 16 years be registered.

As payment of the allowance depends upon registration it would be advisable for parents to make sure that their children's births are on record in the bureau.

You are advised to attend to this at the earliest opportunity so as to avoid congestion and delay in the Edmonton Office due to last minute applications.

The fee for a search for each registration of birth is 50 cents. If a certificate is desired the fee is one dollar. All enquiries should be accompanied by the required fee and addressed to:

Textile Town

MAGOG THRIVES ON COTTON

Many a town in Canada might envy this thriving Quebec community, Magog—a typical textile town. Its progress and prosperity have been built on years of steady work provided for its citizens by textiles, the only big industry in the town. Adult males employed in Dominion Textile mills earn an average of \$30.44 a week, and this substantial block of buying power in Magog is enough to support 118 retail outlets, many of them smart modern shops that would be prized in metropolitan centres. The corporation of Magog is in a sound financial position. It has an enviable public health record too. All this comes from the presence of a stable, fast-paying industry.

Magog is a notable example of the cotton industry's value to this country.

Clever Idea Worked

How Problem of Establishing Bridge-head Over River Was Solved

British and Indian troops were faced with a difficult situation when they sought to cross the Irrawaddy river in Burma to establish a bridgehead. It would have been a costly task by day and the Japs regarded the job as almost impossible at night. The problem was solved by an Irish, an English and a Scottish officer.

Inventor of the idea was Captain Michael Muldoon of the Irish Guards, and he rehearsed it for many nights with his two friends. On the night selected for the landing they crossed the Irrawaddy, which was half a mile wide at this point and flowed swiftly, then standing up to their necks in water and facing the British-held side of the shore, they guided the small boats across by means of red and green flashlights. Men, supplies, munitions and bull-dozers were ferried across, and the Japs did not find out what was going on until the job was nearly done, the total casualties being six men killed or drowned. Once during the rehearsals of the job, the trio were almost discovered, but escaped detection by floating along stream on their backs as if they were just a few more corpses drifting by. — St. Thomas Times Journal.

SCHOOL LUNCHES IMPORTANT

As much care should be put into the preparation of lunches taken to school by boys and girls as in the preparation of their regular meals at home, it is stated by Miss Margaret Smith in the current issue of Health magazine, official publication of the Health League of Canada. Miss Smith is the League Nutritionist.

The school lunch should foster appetite and must satisfy the body's need, Miss Smith writes. A "Food for Health" lunch should contain about one-third of the daily food requirement.

The substances in food positively necessary for body building, growth and repair are proteins, minerals and vitamins. Carbohydrates or starches, fats and proteins produce energy. However, isolated starches, fats and proteins should not be put in school lunch boxes, Miss Smith advises. Rather, foods which contain these desired substances should be used.

The writer says that Canada's Official Food Rules, authorized by the Dominion department of national health and welfare, should be followed in selecting these lunch foods. And, bearing this in mind, she suggests as a typical lunch, one containing —

Half a pint of milk, with the occasional substitution of buttermilk, or cocoa. A vegetable chosen from raw carrots, shredded cabbage, celery, parsley, chopped green peppers or cooked green beans. A serving of raw fruit also should be included. Sweet jams and marmalades should be omitted because of the low vitamin content.

"The basic food of the lunch box is the sandwich," Miss Smith writes. Lunch sandwiches, which provide the greater part of the protein, should contain meat, cheese or eggs. She also recommends highly the use of cottage cheese. While wheat bread should be used because it is most nutritious.

No Nation Remote

Lord Halifax Says Peace Loving People Must Work Together

The Earl of Halifax declared that the United States and Britain must work together for world peace, for no nation henceforth can be considered "remote" and hence safe.

Scientific developments in the next twenty-five years, the British Ambassador said, may mean the "hurting" of explosives on American cities from the coast of Europe or even from the shores of Asia.

In a speech prepared for delivery to the Association of Commerce and the committee on International House in New Orleans, Lord Halifax declared: "In spite of a genuine determination to keep out of the quarrels of Europe the United States has never been able to stay out of a world war. The world gets smaller all the time. To be remote was once to be invulnerable. But no country can be confident of standing aloof from war today because no country is now remote."

"If peace then is as much in your interest as it is in that of the British Commonwealth, or of Russia or France or China, we must go forward side by side to secure it."

A PRACTICAL MEMORIAL

A London banker, whose eldest son was killed while flying with the R.A.F., has made an anonymous donation of £200,000 to provide houses for disabled R.A.F. and Fleet Air Arm pilots and the widows of pilots. THE LAW OF LIFE

Memory Selection: Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind. This is the great and first commandment. And a second like unto it is this, Thou shalt love thy neighbor as thyself. Matthew 22:37-39.

Lesson: Matthew 22:34-46; 23-25. Devotional Reading: James 1:17-27.

Text Explained With Comments

The Two Great Commandments, Matthew 22:34-46. When the Pharisees heard that Jesus had put the Sadducees to silence (as told in verses 23-33), they met in council, and one of them, a lawyer, or scribe, asked Jesus a question which was much disputed in those days, namely, "Which is the great commandment in the law?" The rabbis had divided the law of Moses into three hundred and sixty-five prohibitions as many as the days in the year and two hundred and forty-eight commandments as many as the part of the body, according to the Jewish reckoning of that day and among these six hundred and thirteen prohibitions and commands they distinguished greater and lesser ones. It was a great sin, for instance, to keep the rules in regard to fringes and phylacteries, or in regard to the Sabbath, but an infringement of some lesser commandment was overlooked. Compare our speaking of black and white lies, great and little sins.

"Thou shalt love" was Jesus' answer, love God (Mt. 6:9), and your neighbor (Lev. 19:18). Thou shalt love God with all thy heart, and with all thy soul, and with all thy mind; that is, wholly, with all thy powers, as Psalm 103:1 expresses it, "with all that is within us." And thy neighbor as thyself. James 2:8 calls this "the royal law."

Phariseism Exposed and Denounced, Matthew 23:1-36.

Jesus' Lamens over Jerusalem, Matthew 23:37-39.

Destruction of the Temple Foretold, Matthew 24:1-2.

The Signs of the Second Coming, Matthew 24:3-51.

The Parable of the Wise and Foolish Virgins, Matthew 25:1-13.

The Parable of the Talents, Matthew 25:14-30.

The Last Judgment, Matthew 25:31-46. At the Last Judgment all the nations shall be gathered before the Son of man, and he will separate them as a shepherd separates sheep from goats. Those who trust in God, the righteous, are often called in the Scriptures his sheep, and it is natural to designate the unrighteous as goats. Those who trust in God, the righteous, are often called in the Scriptures his sheep, and it is natural to designate the unrighteous as goats. Those who trust in God, the righteous, are often called in the Scriptures his sheep, and it is natural to designate the unrighteous as goats.

Mighty Battleship

H.M.S. Vanguard Is The Name Of The New Fighting Vessel

H.M.S. Vanguard is the name of Britain's newest and mightiest battleship.

This secret, which has been kept closely ever since Princess Elizabeth launched the ship at a Scottish shipyard on the Clyde last November 30 was disclosed recently.

When Princess Elizabeth launched her, elaborate precautions were taken to prevent the ship's name being published. Microphones recording the ceremony for the BBC and for newsreel soundtracks were cut out and named the battleship.

Many thousands of Clyde-side shipworkers knew the name, and the German radio guessed it correctly some time ago, but up till now it has not been disclosed officially.

The 1944 figure is a conservative approximate estimate of another record-making year in Alberta's Livestock Production.

"FOOD WILL WIN THE WAR" This has been impressed upon us many times by the authorities who plan the all-out strategy to defeat our enemies. The magnificent part which Alberta Stockraisers have played in this vital war requirement, has perhaps, been better realized by the Enemy than the people of Alberta. In addition to this outstanding contribution to the Allied food pool, this record production has added greatly to the economic strength of this province. Additional millions of dollars flowing into the pockets of our producers means larger total incomes... a better margin of profit over expenses... making rural Alberta one of the best "class" markets in the world. Indeed, we can be proud and confident that Alberta will continue to play a leading role in feeding a liberated world, even after the guns are silent.
